### § 1630.1 Purpose.

This part is intended to provide uniform standards for allowability of costs and to provide a comprehensive, fair, timely, and flexible process for the resolution of questioned costs.

### § 1630.2 Definitions.

(a) *Allowed costs* means a questioned cost that the Corporation, in a management decision, has determined to be eligible for payment from a recipient's Corporation funds.

(b) *Corrective action* means action taken by a recipient that:

(1) Corrects identified deficiencies;

(2) Produces recommended improvements; or

(3) Demonstrates that audit or other findings are either invalid or do not warrant recipient action.

(c) *Derivative income* means income earned by a recipient from Corporation-supported activities during the term of a Corporation grant or contract, and includes, but is not limited to, income from fees for services (including attorney fee awards and reimbursed costs), sales and rentals of real or personal property, and interest earned on Corporation grant or contract advances.

(d) *Disallowed cost* means a questioned cost that the Corporation, in a management decision, has determined should not be charged to a recipient's Corporation funds.

(e) *Final action* means the completion of all actions that Corporation management, in a management decision, has concluded are necessary with respect to the findings and recommendations in an audit or other report. In the event that Corporation management concludes no corrective action is necessary, final action occurs when a management decision has been made.

(f) *Management decision* means the evaluation by Corporation management of findings and recommendations in an audit or other report and the recipient's response to the report, and the issuance of a final, written decision by management concerning its response to such findings and recommendations, including any corrective actions which Corporation management has concluded are necessary
